## SUMMARY

I am pursuing a **Bachelor of Engineering in Computer Engineering** at *Sardar Vallabhbhai Patel Institute of Technology, Vasad*, after completing my **Diploma in Computer Engineering** from *Shri K.J. Polytechnic, Bharuch*. My education has built a solid foundation in programming, software development, and problem-solving. I am passionate about **full-stack web development and emerging technologies**, and I am eager to apply my skills through internships, projects, and industry collaborations to grow as a professional.

---

## EDUCATION

**BE:** Computer Engineering

**Sardar Vallabhbhai Patel Institute of Technology – Vasad**

**DIPLOMA:** Shri K J. Polytechnic - Bharuch, 05/2023

CGPA: 7.3

**SCHOOL:** Shri Ranchhod Vidhyaalaya - Vadodara , 03/2020

Grade: 60%

---

## SKILLS

♦ HTML  
♦ React Js  
♦ JavaScript

♦ Tailwind CSS  
♦ CSS  
♦ MERN

---

## PROJECTS

### Tanisq

- HTML, CSS, and React-based project for a Tanishq clone. Built a responsive e-commerce website using React.js, managed app state with React Context, and used React Router for navigation. Gained experience in APIs, reusable components, and designing a user-friendly interface.
- Host on Netlify:- <https://tanisq.netlify.app/>
- Github:- <https://github.com/aqua-thunder/Tanisq/tree/main/src>

### Grabit

- In this project, I learned how to build a social media app using React.js. I worked on features such as posting tweets, liking posts, and real-time updates using state management. I also improved my skills in routing, API integration, and responsive design.
- Host on Netlify:- [grabitcom.netlify.app](https://grabitcom.netlify.app)
- Github:- <https://github.com/aqua-thunder/Grabit>

## StyleKart

- **StyleKart** is a MERN stack e-commerce web application inspired by Myntra. It allows users to buy clothing for men, women, kids, GenZ, and beauty products through a fully responsive interface. I built the backend using Node.js and Express with controllers, routers, middleware, and secure authentication. The project also includes an admin panel where authorized admins can manage users and user messages. This project helped me understand real-world MERN concepts and full-stack application flow.

---

## STRENGTHS & HOBBY

---

- Good problem-solving and debugging skills
- Passionate about web development
- Reading Books
